Welcome & Roll Call

- Welcome from Senator Hewitt
- Dr. David Lafargue, LaSTEM Program Manager

STEM Signing Day

Twenty-three students signed letters of intent to study science, technology, engineering or math (STEM) fields at technical schools, colleges, and universities during New Orleans' inaugural STEM Signing Day held on May 11, 2019.

Signing days enable companies such as Boeing to recognize the hard work and commitment of students demonstrating great potential. Boeing has expanded its support of STEM Signing Day in ten cities, with more than 100 commitments at the
